

As an AI, I do not have the ability to access files or documents, so I am unable to view the original resume you mentioned. However, I can provide an example of how to rewrite a generic resume with the given keywords. Please replace the information with the corresponding details from the original resume.

---

## **\*\*PROFESSIONAL SUMMARY\*\***

Versatile Full Stack Developer, capable of designing, developing, testing, and deploying scalable and secure web applications. Known for writing clean, efficient, and well-documented code for both front-end user interfaces and back-end server-side logic, APIs, and databases. Adept at collaborating with product owners and designers to translate UI/UX designs and business requirements into technical specifications and functional features.

## **\*\*SKILLS\*\***

- \* Mastery of modern front-end frameworks and libraries, able to implement responsive and intuitive user interfaces.
- \* Proficiency in developing and managing robust APIs and RESTful services for seamless data exchange between front-end and back-end systems.
- \* Experienced with various database technologies (SQL and NoSQL), designing schemas, writing optimized queries, and managing data integrity.
- \* Ensuring the performance, scalability, security, and reliability of applications.
- \* Proficient in debugging and troubleshooting software defects and technical issues.

## **\*\*WORK EXPERIENCE\*\***

- \*Participated in all phases of the software development lifecycle, from planning and design to deployment and maintenance.
- \*Collaborated with product owners and designers to translate business requirements into technical specifications.
- \*Implemented responsive and intuitive user interfaces using modern front-end frameworks and libraries.
- \*Developed and managed robust APIs and RESTful services.
- \*Worked with SQL and NoSQL databases, designing schemas, writing optimized queries, and managing data integrity.
- \*Ensured the performance, scalability, security, and reliability of applications.

\*Participated in code reviews, providing constructive feedback and contributing to best practices and coding standards.

**\*\*PROFESSIONAL DEVELOPMENT\*\***

Dedicated to staying up-to-date with emerging technologies and industry trends, and applying them to improve development processes and products.
