

Meher Jahnavi - Full Stack Developer Resume

PROFESSIONAL SUMMARY:

Dedicated Full Stack Developer with extensive experience in designing, developing, testing, and deploying web applications. Demonstrated ability to write clean, efficient, and well-documented code for both front-end user interfaces and back-end server-side logic, APIs, and databases. Adept at collaborating with product owners and designers to translate UI/UX designs and business requirements into technical specifications and functional features.

SKILLS:

1. Full Stack Development: Proficient in developing, maintaining, and deploying scalable and secure web applications across the full stack.
2. Coding: Write efficient and well-documented code for both front-end interfaces and back-end server-side databases.
3. Collaboration: Collaborate effectively with product owners and designers to translate UI/UX designs and business requirements into technical specifications and functional features.
4. Front-End Development: Implement responsive and intuitive user interfaces using modern front-end frameworks and libraries.
5. APIs and RESTful Services: Develop and manage robust APIs and RESTful services for seamless data exchange between front-end and back-end systems.
6. Database Management: Work with various database technologies (SQL and NoSQL) to design schemas, write optimized queries, and manage data integrity.
7. Performance Assurance: Ensure the performance, scalability, security, and reliability of applications.
8. Code Reviews: Participate in code reviews, provide constructive feedback, and contribute to best practices and coding standards.
9. Debugging: Debug, troubleshoot, and resolve software defects and technical issues.
10. Industry Knowledge: Stay up-to-date with emerging technologies and industry trends, applying them to improve development processes and products.

WORK EXPERIENCE:

1. Full Stack Developer (Date - Present)
 - Contributed to all phases of the software development lifecycle, from planning and design to deployment and maintenance.
 - Developed, tested, and deployed scalable and secure web applications.
 - Wrote clean, efficient, and well-documented code for both front-end and back-end.
 - Worked with various database technologies to manage data integrity and write optimized queries.

EDUCATION:

Bachelor of Science in Computer Science (Date)

CERTIFICATIONS:

Certified Full Stack Developer (Date)
